This year's National Day Award winners

A HOSPITAL FOR SINGAPORE

I am delighted to be recognised for my contribution to healthcare services. SGB has always been my first choice, and I hope to serve here for the hospital for Singapore.

Professor Andrew Chan (on behalf of Tan See Lian), chairman of the Board of Directors of Singapore General Hospital and Commissioner of the Singapore General Hospital Foundation, and chairman of the Transapac Group - The Organisation of SGB

THANKS TO TEACHERS AND STUDENTS
This award is dedicated to all who have shaped me to what I am as an educator today – all my teachers who have worked with me throughout my career, my parents and students – to build the school together. Now, the school is looked upon very favourably by the community.

GOOD WORK BY TRAVEL OFFICIALS
This award is a recognition of the good work by the great teams we have had the privilege to work with and we thank you all. We thank the Ministry of Transport. The UUTS has never had such a great team as you are at the same time. We are very appreciative of the community’s support and science as we work on this.

SHARING OUR COLLECTIVE HISTORY

I always love to have ‘Family’ at the Museum that the National Museum has a very unique and important role in our lives. It is a place where we can come together and celebrate our identity and heritage. It is where we can learn about our past and present, and imagine our future. It is a place where we can connect with our roots and understand our place in the world. It is a place where we can share our history and culture with future generations.

IMPROVING GLOBAL RELATIONS

We have a strong sense of responsibility to promote peace and understanding. It is crucial for us to work together and collaborate on global issues. It is important for us to communicate effectively and respectfully, and to listen to each other’s perspectives. It is important for us to respect diversity and to recognize the value of different cultures and traditions. It is important for us to foster strong relationships and to build bridges between nations.

FLEXIBILITY IN EDUCATION

I feel that education is extremely important. I think it is important for us to be flexible and to adapt to new technologies and methods. It is important for us to be open to new ideas and to be willing to learn. It is important for us to be creative and to think outside the box.
