

YES with planetarium at Victoria Concert Hall

Young Educators in Science (YES) and Department of Physics worked with Victoria Concert Hall (VCH) to bring astronomy to 80 concert go-ers at the VCH atrium on 16th June 2018. Especially apt for the accompanying concert which featured music pieces from 'The Planets' by English composer Gustav *Holst*, the audience was treated to a tour of the night skies and nuggets of astrophysics within the safe confines of the planetarium dome.
